

VIRTUAL RETAILING

During COVID-19

Coronavirus has impacted almost every industry, and commercial truck sales are certainly no exception. Even before the virus struck, **80%** of consumer research already took place online.¹ Now, during these unprecedented times, millions more Americans are at home and online. As eCommerce rapidly expands, and the need for commercial trucks grows, having a virtual retail presence is more important than ever before.

At Commercial Truck Trader, we've been closely monitoring the shifts in our industry and have been working tirelessly to ensure we help drive your business forward during this ever-evolving environment. We have shifted our entire business to deliver the right solutions to support a virtual retailing model including:

- Enriched inbound lead notifications with consumer shopping behavior
- Enhanced lead management capabilities so that you can better tailor the sales conversation and convert the sale faster
- Expanded communication channels to negotiate and sell a unit online to safeguard your sales while your dealership may be closed
- The ability for consumers to make an offer directly from your inventory listing

We're giving you access to all these virtual solutions at no additional cost so we can help your business put its best foot forward during these uncertain times.
