

Only 18% of big-item consumers do their research by talking with a representative in-store, while a massive 82% conduct research online before making a major purchase¹. The research these buyers conduct is not simple or brief — most customers now complete between two-thirds to 90% of their sales journey before making contact with a dealer². The commercial vehicle buyer's path-to-purchase no longer starts and ends at a physical dealership, but instead twists and turns online as the customer comes into contact with an average of 19 digital touchpoints before making their purchase³.

Online marketing and sales is more complex than ever. As you establish and grow an online presence, how can you manage your heavy equipment inventory, track consumer shopping patterns, and nurture leads into sales? It's easy, and can be done all in one place, with Commercial Truck Trader's proprietary customer platform, **TraderTraxx**.

Designed with dealers in mind, TraderTraxx — when used to its full potential — can serve as the central hub for all of your dealership's advertising efforts.
